

## Submersible Aerator

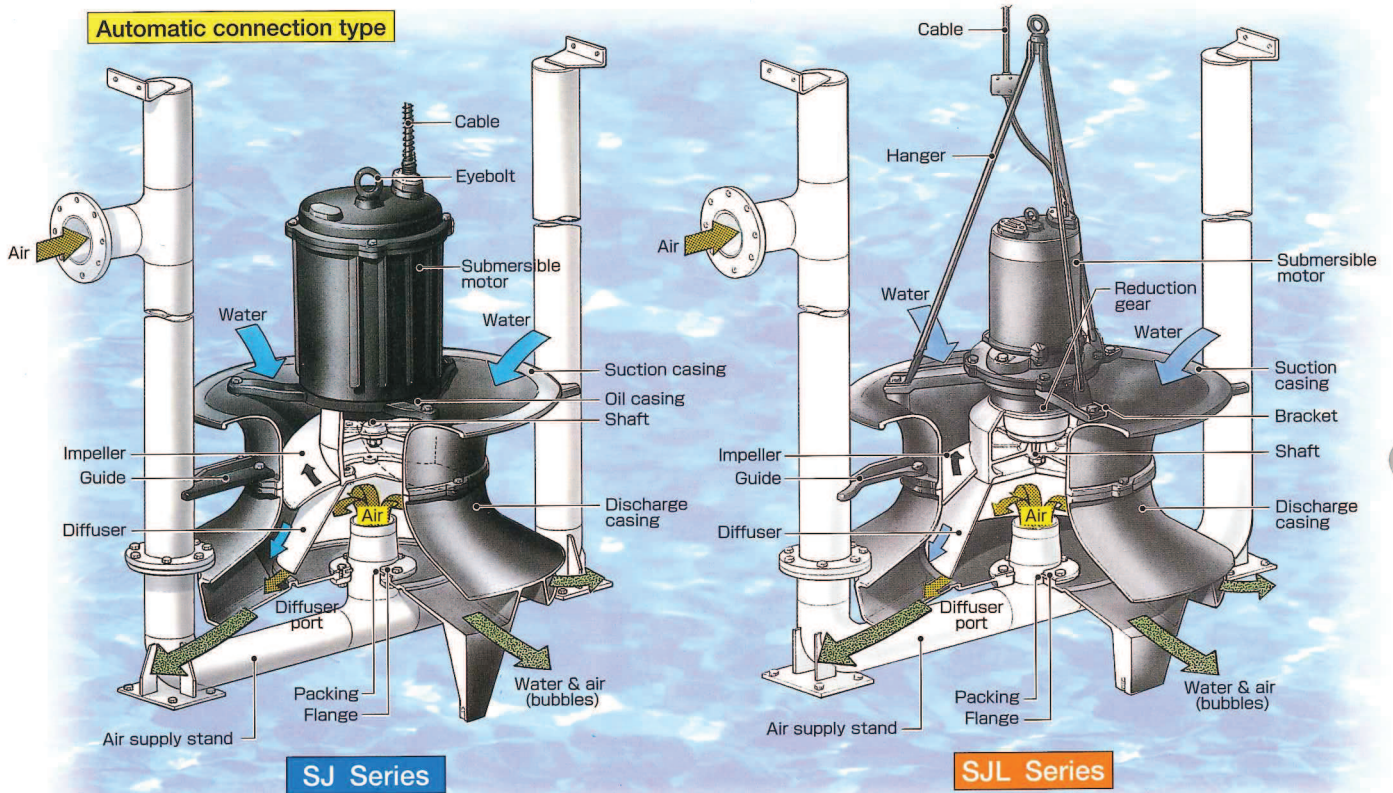

# SJ·SJL Series

Downward discharge type

The SJ & SJL Series offers powerful downward water flow to ensure mixing and high oxygen transfer efficiency. The compact, lightweight body allows for easy installation and maintenance.

### Automatic connection type

## Submersible Aerator

# SU Series

Upward discharge type  
Multipolar motor direct-drive

The SU Series has a compact, lightweight body with powerful upward flow. It is ideal for aeration and mixing in a deep tank that is efficient in creating a uniform current.
